Manjiri Chavande

 github.com/codex108 manjiric.githubio linkedin.com/in/manjiri-chavande cmanjiri1912@gmail.com

SKILLS

C/C++, Java, JavaScript/TypeScript, HTML/CSS, React, Tailwind CSS, Jasmine, Node Js, Express Js, Mongo DB, MySql, Git/Github

EXPERIENCE

Fyle Bangalore, India
Front End Developer Intern *Jan 2023-Jul 2023*

- Gained valuable experience in fixing minor bugs and implementing changes in the codebase.
- Revamped several parts of the codebase to enhance overall system performance and user experience.
- Contributed significantly to two major code coverage initiatives, increasing coverage from 18% to 70%.
- Responsible for unit testing the Angular codebase, making it more robust and efficient.
- Worked collaboratively in a team environment, effectively resolving Sentry errors and improving overall code quality.

Diploma Tech Community Mumbai
Team Open Source *Jul 2023-Present*

- Collaborated with fellow students to build and contribute to several open-source projects. Reviewed Pull Requests (PRs) to maintain code quality and project standards.

PROJECTS

BlockSpirit | *Ethereum, ether.js, Hardhat, Goerli eth, MetaMask*

- Enables secure and efficient global transactions on the Ethereum blockchain.
- Solves the challenge of cross-border transactions using a decentralized approach.
- Leverages libraries like ether.js and Hardhat.
- Utilizes Goerli eth and MetaMask for seamless transactions.
- Tech Stack: Frontend - Tailwind CSS, React; Backend - Solidity; Plugins/Tools - HardHat, Alchemy, Figma.

RippleFeed | *Next.js, TypeScript, Tailwind CSS, MongoDB Atlas, Prisma, Vercel*

- Addresses the need for a user-friendly Twitter-like social platform with enhanced interaction features.
- Built with Next.js, TypeScript, and Tailwind CSS for a modern and responsive experience.
- Utilizes MongoDB Atlas and Prisma for reliable and efficient data storage.
- Deployed on Vercel for seamless accessibility.
- Tech Stack: Next.js, TypeScript, Tailwind CSS; Database - MongoDB Atlas; ORM - Prisma; Deployment - Vercel.

The Eternal Guidance | *Java, Android Studio, Firebase*

- Offers a unified platform for learning, listening, and purchasing the Gita, solving the challenge of fragmented resources.
- Developed using Java and Android Studio for a robust and user-friendly Android application.
- Utilizes Firebase for seamless backend functionalities.
- Tech Stack: Java, Android Studio; Backend - Firebase.

EDUCATION

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai
BTech, Computer Engineering *Aug 2023 - Aug 2026*
Government Polytechnic Mumbai
Diploma, Computer Engineering *2020 - 2023*
St. Charles High School, Mumbai
High School *2019-2020*
